

Introduction to Linux and Open Source

LUG Document Series #1

Minodasht Linux User Group

July 13, 2025

primaryContents

1	Introduction	4
1.1	What is a Linux User Group (LUG)?	4
1.2	Why Linux?	4
2	Who is Linus Torvalds?	4
2.1	A Quick Background	4
2.2	From a Hobby to a Movement	4
3	What is Linux?	4
3.1	Kernel vs. Operating System	4
3.2	How Linux Relates to Unix	4
4	Open Source and Free Software	4
4.1	What Does Open Source Mean?	4
4.2	Free as in Freedom	4
4.3	The Role of the GNU Project	5
5	A Brief History of Linux	5
5.1	Initial Release in 1991	5
5.2	Community Collaboration	5
5.3	Why Git Was Created	5
6	What is a Linux Distribution?	5
6.1	Why Distros Exist	5
6.2	Examples of Common Distros	5
7	How to Get Started	5
7.1	Installing a Distro	5
7.2	Desktop Environments	5
7.3	Basic Terminal Usage	5
8	Wrap-Up	5
8.1	Further Resources	6
	Further Resources	7

Document Abstract

This document serves as the first installment in the Linux User Group document series, providing a comprehensive introduction to Linux, its history, and the open-source ecosystem. Topics covered include the biography of Linus Torvalds, the evolution of the Linux kernel, version control with Git, and an overview of popular Linux distributions.

lugprimary1 Introduction

lugdark1.1 What is a Linux User Group (LUG)?

lugdark1.2 Why Linux?

lugprimary2 Who is Linus Torvalds?

lugdark2.1 A Quick Background

lugdark2.2 From a Hobby to a Movement

lugprimary3 What is Linux?

lugdark3.1 Kernel vs. Operating System

lugdark3.2 How Linux Relates to Unix

lugprimary4 Open Source and Free Software

lugdark4.1 What Does Open Source Mean?

lugdark4.2 Free as in Freedom

lugdark4.3 The Role of the GNU Project

lugprimary5 A Brief History of Linux

lugdark5.1 Initial Release in 1991

lugdark5.2 Community Collaboration

lugdark5.3 Why Git Was Created

lugprimary6 What is a Linux Distribution?

lugdark6.1 Why Distros Exist

lugdark6.2 Examples of Common Distros

lugprimary7 How to Get Started

lugdark7.1 Installing a Distro

lugdark7.2 Desktop Environments

lugdark7.3 Basic Terminal Usage

lugprimary8 Wrap-Up

lugdark8.1 Further Resources
